The News.

A despatch from Trinity Bay states that the success of the Atlantic Telegraph is placed beyond all doubt. Signals through the entire length of the cable are perfect. The line will be opened for business in the course of a few days.

We have later advices from Europe by the arrival of the *Arago*. The details of her news will be found under the telegraph head. The Liverpool breadstuffs market continues quiet and without change.

We have some further returns of both the Missouri and Kansas elections. The returns from Kansas indicate an overwhelming majority against the English Bribe.

A fire occurred at Hilledale, Michigan, on Saturday, destroying property valued at $12,000.

The New York Produce Market was without important change on Saturday. In our own market Flour and Wheat were firm, with an advance in the latter. Our Weekly Commercial Review will be found on the Fourth Page.

The weather on Saturday, as on the day previous, was very hot, the thermometer ranging between 90 and 95 degrees in the shade.

The Telegraph:

We are still without any trans-Atlantic despatches, but the tenor of the advices from Trinity Bay, on Saturday, seems to leave no reasonable doubt as to the complete success of the undertaking. The public impatiently wait for further tidings, which we may look for daily.

Dr. McVICKAR Removed.

Yesterday, Collector Strother received from the Treasury Department the appointment of Dr. Brainard as Surgeon of the Marine Hospital, in place of Dr. McVickar. We will not disguise our regret that Dr. McVickar has been removed. He is competent, faithful, a gentleman, and a true Democrat. His administration of the duties of the office have been most satisfactory, and, compared with his predecessor, has been very remarkable. In a few days we think we will be able to throw such light upon this removal and appointment as will make the base corruption, dishonest profligacy, and reckless disregard of public interests involved in them so transparent, that not an honest man in Chicago will hesitate to denounce the foul wrong.—*Chicago Times, Saturday.*

The "base corruption, dishonest profligacy, and reckless disregard of public interests," in this change of officials at Chicago, is charged home by the *Times*, the organ of Senator DOUGLAS, upon a "Democratic" President, JAMES BUCHANAN. He it is who has been guilty of this "foul wrong," and all to punish Dr. McVICKAR for being friendly to Senator DOUGLAS, and to reward Dr. BRAINARD for adhering to Mr. BUCHANAN. What a dignified exercise of the Executive patronage!

THE GOVERNMENT EXPENDITURES.—The Washington *States*, which is now by far the ablest Democratic paper at the federal capital, gives the aggregate of expenditures of the current fiscal year at $103,856,728—just as given by the Washington correspondents of the Philadelphia *United States Gazette*, and the Cincinnati *Gazette*, the statement of all three writers being founded upon the official report of the Democratic clerk of the Democratic House of Representatives. The report precludes, in fact, all controversy on the subject.

☞ General Jim Lane was discharged from arrest, for the murder of Jenkins, by E. D. Ladd, Justice, whilom a resident of Milwaukee. This Ladd is the same fellow who was presented with a rifle at the *Sentinel* Office, Milwaukee, in 1855, and sent out to fight for Freedom in Kansas; and, of course, was and is an undiluted specimen of Shanghaism.—*Appleton Crescent.*

We copy the above simply to say that the reference to the *Sentinel* office, is, like most of the political paragraphs in the *Crescent*, a sheer falsehood.

Crops in Calumet County.

CHARLESTOWN, Calumet Co., Aug. 3d.

MESSRS EDITORS:—As harvest has but fairly commenced with us, I thought best to send you a few lines respecting the crops in this vicinity. Both Winter and Spring Wheat is more or less injured by rust, especially all that was late sown. I think, at the best, there will hardly be two-thirds of an average crop of Rye and Barley; but little was sown. Oats and Potatoes bid fair to be a good crop. There is no Corn raised here, excepting "Yankee Corn," and owing to the heavy rains in the Spring but little was planted. The Hay crop is good.

Yours &c.,
J. H. STANLEY.

A MURDEROUS DUEL IN CUBA.—The Havana correspondent of the New York *Herald* writes:

A cowardly and brutal murder took place about the middle of last week, at Regla. There has been several versions of the affair in circulation, all, however, agreeing in the main facts of the case, which, therefore, I shall only send you.

Two military officers (young men) had a quarrel at a gambling table. To avenge the wounded honor of one or the other, a duel was resolved upon. Accompanied by seconds, they met according to appointment, in an old quarry, at the end of the main street of Regla, on the road to Guanabuera. The weapons were swords—One of the principals was cut down, and whilst he lay upon the ground, his opponent's second, who, it appeared, had some private pique against him, drew a pistol from his pocket and shot the wounded man, from which wound he died. His second, drawing his sword, a tacked the murderer; however, he and his principal made good their escape, and have not, I believe, as yet, been apprehended. The youth who was murdered, (he was only seventeen years of age, I hear,) was a nephew of Gen. Lersundi, Captain General of Madrid, so that unless the guilty party has effected, or does effect his escape from the Island, he will most likely receive that punishment which his cowardice merits.

NEW STEAMSHIP LINE TO FRAZER RIVER.—On the 21st of this month the steamship *Hermann* will sail, in charge of Capt. Cavenly, for San Francisco and Frazer River direct. She will be followed by her consort, the steamship *Washington*. These steamships are eventually, we are informed, to ply between San Juan del Sur and San Francisco, in the Nicaragua steamship line, whenever the Nicaragua transit route is opened. They were sold at auction recently to Shepherd Knapp and others for $46,000, who, on the breaking out of the Frazer River excitement, sold them to a California company for $150,000.—*N. Y. Tribune, Aug. 4.*

SENATOR CHANDLER.—We are glad to be able to state that this gentleman is getting along well under the injuries received by the late accident. Of course his recovery must be slow, but strong hopes are entertained that he will not even suffer disfigurement.—*Detroit Tribune*, August 6.

African Slave Trade in Full Blast—Case of the Bark E. A. Rawlins.

SAVANNAH, Ga., Aug. 1, 1858.

I have just seen in the Augusta papers of this morning a despatch dated Savannah, July 31, saying:

"It is rumored here, and perhaps only a rumor, that the bark E. A. Rawlins has just landed 460 slaves somewhere on the coast."

This dispatch will, of course, go through the country; and, as it is calculated to convey a *wrong* impression, I wish to give you some of the facts of the case. You will, perhaps, remember that some excitement was created here in t year by the seizure of this bark, on the ground that she was being fitted out as a slaver. After due examination she was discharged, no evidence sufficient for her condemnation being found. She completed her preparations and sailed for Mu'tira. Yesterday morning she arrived here in ballast, without papers, and with a new captain and crew who had been shipped at Galveston. It is commonly reported that she landed 450 negroes in good order. Her owners do not feel any evil consequences from the irregularity of coming in without papers, as her captain has already, I think, reported himself to the Custom House officers as in that condition, and therefore surrenders himself and pays the fine of $500. This leaves his vessel clear; she can obtain papers, clear again for Madeira with an "assorted cargo," as before, and make another good run.

These are, in brief, the facts of the case.—The slave trade is not re-opened, as Mr. Lamar, in his letter to Secretary Cobb, threatened would be the case, for it has never been closed. Mr. Lamar only proposed to do openly and above board what is done secretly every week in New York and Baltimore.

Steamboats.

FOR CHICAGO.—Steamer *Traveller* leaves every morning, (excepting Sunday,) from Johnson & Olmsted's Dock, at 9 o'clock.

The Steamer *Arctic* leaves every Sunday evening at 9 o'clock, from Johnson & Olmsted's Dock.

FOR TWO RIVERS.—The steamer *Cleveland* leaves every morning, (excepting Sunday,) at 7½ o'clock, from same place, for Two Rivers, stopping at Fort Washington, Sheboygan and Manitowoc.

FOR GREEN BAY.—The steamer *Arctic* leaves for Green Bay, from Johnson & Olmsted's dock, every Wednesday, at 9 o'clock P. M.

FOR GRAND HAVEN.—The steamer *Forester* leaves Kellogg & Strong's dock every morning, (Sundays excepted,) at 8 o'clock, for Grand Haven—Detroit & Milwaukee R. R. connection.

FOR BUFFALO.—A line of propellers run to and from Buffalo, one of which leaves this city daily.

FOR ODDENSBURGH.—A tri-weekly line of propellers also run to Oddensburgh

GRIFFIN & BRUSH, at the foot of East Water street, are the Ticket Agents for the above lines.

Shipments from Milwaukee.

By reference to our Commercial Review it will be seen that the shipments of wheat and flour from Milwaukee up to the present time, are nearly double the amount to the same date last year. By comparing the shipments for the two seasons, we have the following statement:

Year.	Flour.	Wheat.
1857.	128,718	1 468 289
1858.	187,552	2,285,722
Increase,	58,834	877,443

By reducing flour to wheat, we have therefore an aggregate of 3,189,706 bushels of wheat shipped thus far this season. Adding in the other grain, the total shipments from Milwaukee up to the present time are *three millions six hundred and seventy-five thousand, four hundred and seventy-eight.*

A PHARISAICAL NEWSPAPER.—The *Wisconsin* of Saturday takes it upon itself to read a lecture to its city cotemporaries, the *Sentinel*, *Free Democrat*, and *News*, for "pandering to a vicious taste" in selections for their columns; and then, with a sanctimonious hypocrisy that is especially refreshing, proceeds to remark:

It is time that this description of newspaper matter was excluded from every column. The *Wisconsin* has ever steered clear of the loathsome driftweed, and it is with feelings of pride, made doubly so, by the course our cotemporaries are now pursuing, that we so remark, and feel that our readers will acquiesce heartily in corroborating what we have said.

While it is quite unnecessary to say that nothing has ever appeared in the columns of the *Sentinel*, of the character referred to, it is equally superfluous to add that the *Wisconsin* is, by common consent, the *smallest* paper published in this State.

NEW HOTEL.—We understand, from a reliable source, that there is a project on foot for a new hotel, in the 4th Ward. The site is to be the present grounds now occupied by the American House, and running to West Water St., making a front of 200 feet on Spring street, and 200 feet deep, with two main entrances, one on Spring, and one on West Water street, with stores underneath, and covering the whole ground, from the alley to West Water street. The parties interested in this project are the present owners of the grounds, and abundantly able to put up such building, without calling on any outside parties. They are among our oldest citizens, and when they undertake anything, it is sure to go ahead. We understand the parties are HARVEY BURCHARD, CHAS. H. WILLIAMS, and Messrs. P. KANE & SONS; the latter proposing to furnish, and keep the hotel, guaranteeing to the other parties a good interest on the investment. We say go ahead, the more hotels we have, the better; every one helps our city, and those we already have are filled to overflowing.

A SUGGESTION.—We would respectfully suggest to our neighbors of the *Wisconsin* and *News* the propriety of relying a little more upon their own exertions, than the columns of the *Sentinel*, for the information usually contained in their weekly reviews. The *Wisconsin* very coolly appropriates, every week, the commercial tables from the *Sentinel*, as "our tables;" while the *News* generally takes our money article, and about three-fourths of our reviews *verbatim*, without credit. Now it costs us no small amount of labor in getting up our market reports, full and accurate, and it is certainly dishonest in our cotemporaries to use what belongs to us, as their own.

DID THEY DEAD HEAD?—No Tickets were given for the Excursion to St. Paul except those sent to a club in the Ticket Office by the Packet Co.; these were given, as directed, to Editors only. The Excursion was arranged by the Packet Co. and the Ticket Agent of the C. St. P. & F, Co., during the absence of the President and Superintendent of the M. & M. R. R. Co. No passes were given by the officers of the M. & M. Co.

HOT WEATHER—SUN-STROKE.—Friday and Saturday were the two hottest days of the Summer, the mercury, towards noon, ranging about 90, though on both days the heat was tempered by a fine Lake breeze. Speaking of hot weather and its occasional effects, reminds us that we heard one of our oldest and most experienced physicians, Dr. E. B. WOLCOTT, say last week, that he had never heard of a well-authenticated case of sun-stroke in Milwaukee, the summer heat being always more or less modified by the Lake breeze.

BOAT RACE.—The boat race, Saturday afternoon, between the *Jessie*, four oared, and the *Wenona*, six oared, resulted in favor of the latter. The *Jessie* led down the river, but the *Wenona* passed her on the Lake and came home an easy winner. Quite a fleet of row boats, of all sorts and sizes, attended the race.

Common Council Proceedings.

MAYOR PRENTISS PRESIDING.

A meeting of both boards of the Common Council met in joint convention.

There was barely a quorum present.

The Mayor stated that the object of the meeting was to canvass the votes polled at the recent election for Delegates to the Charter Convention.

On motion of Councillor Hadley, the President and Clerk proceeded to canvass the votes.

The official returns show the following result:

In the 1st Ward the whole number of votes polled were 175; of which Jackson Hadley received 128, Garret Barry 151, W. H. Jacobs 162, and the balance scattering.

In the 2d Ward there were 141 votes polled; of which Dr. Heubschmann received 107, C. F. Bolle 129, P. Kelley 135, and the balance scattering.

In the 3d Ward there were only 91 votes cast; of which S. B. Grant received 90, J. B. Cross 88, Edward McGarry 74, and the balance scattering.

In the 4th Ward there were 278 votes polled, of which Jonathan Taylor received 166, Herman Schwarting 165, James Martin 168, and the balance scattering.

In the 5th Ward 278 votes were cast; of which Charles Larken received 225, P. T. Deuster 197, E. DeWolf 189, and the balance scattering.

In the 6th Ward the whole number of votes cast were 680; of which Frederick Schloemilch received 61, Leander Comstock 40, Wm. Wedemeyer 41, and the balance scattering.

In the 7th Ward 364 votes were cast; Andrew G. Miller receiving 358, James S. Brown 309, Mathias Stein, 357, and the balance scattering.

In the 8th Ward 200 votes were polled; of which Henry Milmann received 132; Mitchell Steever 162. E. C. Wunderly 168, and the balance scattering.

In the 9th Ward 180 votes were polled; of which John Kline received 148, Andrew Keye 138, Samuel Brown 140, and the balance scattering.

The above persons having received the greatest number of votes declared duly elected by the Common Council, as Delegates to the Convention to amend the City Charter, in accordance with Section 3, of the amendments to the Charter.

A communication from the City Treasurer was presented to the Convention, stating that he had appointed Morris Von Baumbach as Deputy Treasurer, and asking the Council to confirm the same.

Alderman Phelps said that he understood the present meeting to have been called for the purpose of canvassing the election returns, and he thought where an appointment was to be made, at least one day's notice should be given of it.

The Mayor stated that one days notice was given of the present meeting, and that the joint Convention was called to canvass the returns and transact any other business that might legitimately come before it. His Honor also explained that the Convention was not called upon to appoint an officer, but merely to confirm an appointment.

On motion of Councillor Hadley the appointment was unanimously confirmed.

Another communication from the Treasurer was also laid before the Convention, accompanying a bond of $100,000 for the faithful discharge of his official duty, the period for which his time of office had been prolonged having expired on the 2d inst.

A discussion have arose as to whether the consideration of a matter of this nature came within the province of the joint convention.—The Mayor stated that he was of opinion that the convention could take no action upon this matter. The communication and bond would have to go before each Board separately for examination and approval. The clerk was therefore directed to take charge of the documents and have them presented at the meeting of the Board of Aldermen this evening.

On motion the convention then adjourned.

☞ The Western public have long felt the necessity of a "Home Express Co." We learn that a very favorable charter was granted by our Legislature, in 1854, with a capital of $800,000, and a Company has been organized, but as yet but little done—save complying with its charter—though we now learn that steps are being taken to put the matter in operation. It is well known that all, throughout the West, are dependant upon the "American Express Company," a Company grown large and independent, controlled entirely by Eastern men.—There is no doubt at all, but a Western Company, managed and controlled here, would prove to be first class paying stock, for it is undeniable that by far the greater portion of Express business is found in the traffic with the West. A little reflection on the part of the business men of the West, will readily convince them of the necessity of a good Western Company, and of the fact that it will pay.

Wasting Water.

MR. EDITOR:—Please call the attention of the Firemen to the *fact* that the two Reservoirs at the Public Square in the Seventh Ward are very small, and that they are the only source from whence a *small* supply of water can be obtained to extinguish fires in that neighborhood. Although we may love to see them enjoying the sport of pumping these Reservoirs dry, still we have serious apprehensions that the water may be wanted for more *valuable* purposes.

SEVENTH WARD.

Milwaukee, August 7.

POLICE COURT SATURDAY.—Mary Murphy, was arraigned for vagrancy, and sent to jail in default of $10 and costs. B. Shearl was fined $1 and costs, for intoxication. John Fredenburg, was arraigned on charge of being disorderly, and the case adjourned to the 10th, for examination. Catharine O'Connell, was brought up on a similar charge, and the case held open subject to good behavior of the defendant. Michael Hawley, was convicted of being drunk and disorderly, and fined $10 and costs. Lawrence Daley was convicted of an assault and battery, and sent to jail in default of $15 and costs.

MILITARY MATTERS.—At an election held by the Light Guard on Wednesday evening, the following officers were elected:

1st Lieutenant, J. M. Loomis; 2d do. Geo. W. Gage; 3d do. C. O. Marsh; 4th do. George S. Wright. Great enthusiasm and harmony prevailed at the meeting.—*Chicago Journal.*

The many friends of the Chicago Light Guard in this city will be glad to hear of their prosperity. Capt. WYMAN now commands this fine corps.

HOUSE AND FURNITURE.—J. S. FILLMORE has a good brick house, *all furnished*, ready to step into, on Mason street, to rent low.

NOTICE.—MR. E. WALKER, Student of the Western Theological Seminary, Allegheny, Pa., will lecture on Monday and Tuesday evenings next, 9th and 10th of August, at the First Baptist Church. Lecture to commence at 8 o'clock P. M. Subject, the Rights and Wrongs of the Free Colored People of the United States.

Amende.

The undersigned, having, with some of our friends, published one or more cards in March and April, reflecting harshly on the *Ætna* Insurance Company, of Hartford, Conn., for applying, as we thought, improperly to the case of our loss, the clause in their and other policies touching damage to goods by removal, do hereby take this method of saying to all interested in the matter, that we now consider that the whole difficulty has resulted from misapprehension, and perhaps unnecessary misunderstanding in the case; and that we have, as we ever hitherto have had, the fullest confidence, not only in the ability but in the disposition of the Company to do that justice to all its policy holders for which it has deservedly so wide a reputation; and we do hereby expressly withdraw all that we have said or published disparagingly to the Company, or to those who have acted for it in the premises.

"I HAVE SAVED $500"—This remark, made by a gentleman the other day, whose strength had been restored by a bottle of Prof. DeGrath's, genuine "ELECTRIC OIL," would apply to thousands, especially to the men or women who depends on self-exertion for support. No person can save money who is half the time sick, lame, rheumatic, and suffering from pain; but if timely caution were used, and before consumption becomes fixed on the lungs, and apostrize, the application of the "Electric Oil" should be made, hundreds of dollars would be saved, and life would be made tolerable also. Ask Mark Gregg, Esq., 45 Marshall street, Philadelphia, and hundreds more who have been cured. N. B.—No charge for advice.

Arrival of the Steamer Arago.

ST. JOHNS, Aug. 7.

The U. S. mail steamship *Arago* from Havre, and Southampton 28th, passed Cape Race 5 o'clock Thursday afternoon. Her advices came to hand yesterday, but owing to the interruption of the wire in Cape Breton, we were unable to transmit it until to-day. A portion of her advices have been anticipated by the arrival of the *Prince Albert* at Halifax. The screw steamer *Anglo-Saxon* from Quebec 17th July, arrived at Liverpool 27th. The ship *Hattie Bell* had arrived from Amsterdam with five hundred thousand pounds in treasure.

There had been some interesting debates in Parliament.

Baron Rothschild had been sworn in as a member of the House of Commons and took his seat at the Monday morning's sitting, when he voted for the first time.

The Duke of Malakoff had received an invitation from Lord Lyons, to go in the *Royal Albert*, the flag-ship of the British squadron to Cherbourg.

There had been an extraordinary discovery of old coins in France.

A heavy gale had been experienced at Liverpool. Thirteen vessels went ashore, but came off at flood tide.

The Emperor Napoleon had made a splendid present to the Viceroy of Ireland.

The Australian Mining Company, after considerable discussion, had resolved to discontinue mining operations.

There had been a meeting of Jews in commemoration of the passing of the bill admitting Jews to Parliament.

Mademoiselle Louise Pyneaud Mr. Harrison have accepted a new Opera from Balfe.

Prince Odelbuit, of Prussia, has been invited to Cherbourg by Napoleon.

From Utah—Missouri Election.

ST. LOUIS, August 7.

General Harney, Maj. Buell, Capt. Pleasanton, and Surgeon Wright arrived last evening. The councils between Harney and the Cheyennes at Collingwood Spring, and the Pawnees near Fort Kearney, resulted in their pledging themselves not to molest the whites, and promising to remain at peace with each other. The Utah correspondent of the *Republican*, under date of July 30th, says that Brigham Young has had all the animals taken from the Government trains last Fall, driven into Salt Lake City, for the purpose of having them delivered to Gen. Johnston. Young has desired Gov. Cummings to receive them officially, and forward them to Johnston.

Official returns for St. Louis Co. give Barrett, Dem candidate for Congress, 7,657; Blair 6 681; Breckenridge, 5,668; whole dem. ticket elected, by from one to three hundred maj. In the fifth district Woolson is re-elected to Congress by about six hundred maj. In the 2d district Anderson will get upwards of 4,000 maj. Scattering returns from the 7th district indicate Noells elected over Zigler, by a large maj. In the 4th district Craig will be re-elected by about 3000.

Craig's, administration candidate for Congress, maj. in Buchanan and Platte counties is 1730 over Adams, opposition. It is believed that Craig's maj. in the district will exceed 3,000.

Kansas Election.

LEAVENWORTH, August 4.

By United States Express to Boonville, August 7th.—Complete returns from Leavenworth Co. give a majority of 1748 against the bill.

Partial returns from Shawnee, Johnson and Franklin counties, increase the majority against the bill to 4704. The total vote of these counties, as received, is 8848.

It is thought that the whole vote of the Territory will reach 18,000. The opponents of the bill claim a majority of 9000.

Topeka county cast 246 votes against the bill, and 10 for it. Lecompton 122 against and 21 for it.

Nothing received yet from the Southern and Western counties.

Companies are now organizing in this city for Frazer's River, over the Plains.

NEW YORK, Aug. 6.

Instructions have gone to Gen. Lamar to advise Costa Rica and Nicaragua that the U. S. will take justice in their own hands.

The steamer *Glasgow*, which left to-day for Glasgow, took out 280 passengers.

The publishers, printers, editors, and aids of Frank Leslie's journal were arrested to-day for new libels on our worthy Aldermen Reed and Mike Tuomey.

Flags were displayed to day on our City Hall and other public buildings, in commemoration of the laying of the cable. A meeting of the board of Aldermen is called on Monday, to make arrangements for a municipal celebration of the event.

The Atlantic Cable—Another Letter from Mr. Field.

TRINITY BAY, August 7.

The complete success of the Atlantic Cable is placed beyond all doubts. Signals are now being made through the whole extent of the cable, but it is unlikely that the cable will be opened for business for several days, or perhaps a week, as the electricians will require time for a series of experiments with their recording instruments. Due notice will be given of the opening of the line for business.

PORT HOOD, CAPE BRETON, Aug. 6.

Early last evening the line between this place to Baddeck ceased to work, and has but just been repaired, and we now learn that the line is also down, east of Baddeck, and between there and Ashy Bay, which is the point where the New-Foundland cable is connected with the land line.

Active measures have been taken to put the line in working order, but this may occupy all day to-morrow, owing to the long distance between the Telegraph Stations, and the nature of the country to be traversed.

Numerous communications passed to and from Trinity Bay yesterday, before the line went down here, and there is not the slightest reason whatever, to doubt the truth and genuineness of the despatches from Mr. Field, as published yesterday.

The rumore of deception, tricking, &c., have not the least foundation, so far as we know or believe. The most perfect reliance is felt here and at every station upon the lines, that the Atlantic cable has been successfully laid between Ireland and Newfoundland. There is no good reason to believe that the cable can be got in readyness before the early part of next week, and by that time at the farthest, the land line can and will be put in perfect working order, and will be kept so.

TRINITY BAY, N. F., Aug. 7.

To the Associated Press, N. Y.:—Since our arrival here on the morning of the 5th, I have been constantly receiving telegraphic messages asking for full particulars in regard to laying the cable, to which it is impossible for me to reply, as every moment of my time will be fully occupied while I remain here. I handed to Mr. McMay, Superintendant of the New York, Newfoundland and London Telegraph Companies Lines, my daily journal, and given him full permission to send from the same any extracts that he might think of interest to the public, especially those portions which will reply to the communications I have received.

Signed, CYRUS W. FIELD.

BUFFALO, August 7.

Upon the receipt of the news of the cable's being successfully landed, a strong desire took possession of the people of Buffalo to celebrate the event in a manner becoming its importance. A committee was appointed; to-night was set apart for the celebration. It is the proudest day Buffalo has ever seen. The buildings on the principal streets are brilliantly illuminated, bonfires are blazing on almost every corner, guns firing, bells ringing, bands of musice parading, and the streets literally packed with an excited and joyous throng. In the midst of the proceedings Governor King, accompanied by the Canal Commissioners, arrived from the trial of steamboats on the canal.

They were met at the dock and received by the Mayor and Council, and escorted through Main street to the American Hotel, where speeches are now being made, appropriate to the occasion. In view of the success of the Telegraph cable enterprize and the practicability of steam navigation on the canal, demonstrated by the trial just had, this day will long be remembered by the citizens of Buffalo as an epoch from which to date the commencement of its new growth.

MADISON, August 7.

Last night a celebration came off here in honor of the arrival of the Niagara at Trinity Bay. The offices of the *Journal* and *Argus*, and the telegraph office, were brilliantly illuminated, bon-fires blazed in several parts of the city, and a festival took place in honor of the occasion at the Concert Garden.

Appropriate speeches were made by several of our most prominent citizens. Bands of music paraded the streets, and the rejoicing continued far into the night. Everything passed off satisfactorily.

CIRCLEVILLE, O., Aug. 7.

Our city was beautifully illuminated last night—all the bells were rung—splendid fireworks displayed—bands of music were out—the beauty of woman graced the streets—and a mighty concourse of people thronged the streets, all in honor of the success of the Telegraph cable.

NEW YORK, August 7.

The Vestrymen of Trinity Church have determined on celebrating the event of the successful working of the Atlantic Telegraph Cable, by ringing a merry peal on their set of bells for an hour after the transmission of the first message.

We would suggest that all the churches throughout the country follow the example of Trinity Church, and that at the same hour a general salute be fired throughout the continent.

The Guillotine at Work.

The President has removed AUSTIN BROOKS, Esq., postmaster at Quincy. Mr. BROOKS, as is well known, is editor of the Quincy *Herald*, and through his paper, he thus responds to the announcement of his decapitation:

OFFICIALLY ANNOUNCED.—The Washington *Union*, of Thursday last, the President's organ, makes the official announcement that "John C. Riley, Esq., of Chicago, has been appointed Postmaster at Quincy, Ill., in the place of Austin Brooks, removed." So, the President has really turned out! Well, it's all right. He has been a good while about it, to-wever. He ought to be ashamed of himself for the delay. But, then, how could he help it? There wasn't a Democrat in Quincy that would have it, under the circumstances, and he was necessarily compelled to wait till he could scare up a man in Chicago to take it. If we had the same power over him that he had over us, we shouldn't have dilly-dallied as long about it as he has done—we should have turned *him* out of the office of President six months ago. If we had him in the same "row for stumps" that *he* has been about the Quincy post-office, and couldn't find a man that wanted to take his place as President, we should have *abolished the office*. It is glory enough for us to know that although we are turned out, the President couldn't get a Democrat in Quincy to take the office from us, or else that he did not believe he had a friend here fit for the place. All this is very complimentary to us, in whatever fix it may leave our friends. Judge Cather and Barrister Deane.

The offence for which Mr. BROOKS suffered decapitation was adherence to the fortunes of Senator DOUGLAS no man being recognized by the Federal Administration as a Democrat in good standing, who does not denounce DOUGLAS and all his works. The Chicago *Journal* says that Dr. MCVICKAR, Physician to the Marine Hospital, another friend of DOUGLAS, has just been removed, and Dr. BRAINARD, originally a "Free Soiler," but now one of the "Nationals," appointed in his stead. Of course, the war between the DOUGLAS and BUCHANAN parties wakes fiercer and fiercer in Illinois. It is Life, or Death, with both President and Senator. Victory to the one is destruction to the other.

HOW BLAIR WAS DEFEATED IN ST. LOUIS.—The St. Louis *News*, the K. N. organ in St. Louis, thus explains how BLAIR was defeated at the recent election in St. Louis:

There are hundreds of Americans in the city who voted for Barret, because they believed the *Republican's* falsehood that there was "no chance for Breckenridge." And at one precinct in the country, we are positively assured by an American, there were thirty American votes given to Barret. The voters gave as a reason of their vote their "great anxiety to beat BLAIR."

The Know-Nothings shared with the Pro-Slavery Democrats this "great anxiety to beat BLAIR," and labored lovingly together to effect that object.

STILL "AFTER NOONAN."—The *News* of Saturday vents another bait column of angry explosives upon Mr. NOONAN, the great object of its fear and hate. Mr. N. rather seems to enjoy the paroxysms of terror and rage into which the mere mention of his name invariably throws the *News*.

CHESS MATCH BETWEEN MESSRS. MORPHY AND LOWENTHAL.—The Illustrated *News* of July 24th, says that the terms of this match have been changed, so that the winner of the first nine games is the winner of the stakes (£100,) and the games are to be played alternately at the St. George's and at the London Chess Clubs. The first game was played on July 19th, which, after an arduous struggle of several hours' duration, ended in a drawn battle. The second game, on the 20th, was won by Mr. Morphy, but was quite uninteresting.

THE LA CROSSE R. R. COUPONS.—The Committee of the Board of Brokers exonerate the Directors from any attempt to deceive the public, but censure them for advertising the payment of the coupons without having the money on hand.

DEATH OF MR. J. Y. SCAMMON, OF CHICAGO.—The Chicago *Journal* announces the death of Mr. J. Y. SCAMMON, of that city, which occurred on the 9th of July, near Frankfort on the Maine, Germany.

PRECIOUS METALS IN BAD AX COUNTY.—The Viroqua *Times* of August 4th, informs us that pure specimens of Gold, Silver, and Copper have been found in different localities in that county, within the past few days. The gold was found in one of the branches of the Kickapoo.

Senator Douglas on the Union.

The Washington *Union* is the recognized exponent of National Democracy, and official organ of the Federal Administration. It reflects the views of the Party and utters the opinion of the President. Democrats, as well as Republicans, receive, therefore, its giving-out as oracular, and its doctrines as necessarily orthodoxy. The *Union*, just now, obedient to the behests of Mr. BUCHANAN, is diligently engaged in "crushing out" Senator DOUGLAS in Illinois. Senator DOUGLAS is not a man to take a blow without giving as good in return. Accordingly, in a recent speech in Paris, Illinois, he thus paid his respects to the central organ of the Democratic Party:

Whilst the Washington *Union* professes to be the especial organ of the President of the United States and the Democratic party, it is engaged in a conspiracy and is carrying out a scheme by which its managers hope to break down the Democratic party by creating dissensions in our ranks, and thus secure the triumph of the black Republican organization of this country. What do you suppose the object of the *Union* is? You have only to enquire who the owners and managers of that paper are, and the truth will then be perfectly plain. The owner and proprietor of the paper is Cornelius Wendell, that same man who has become so notorious as a lobby agent, and the chief of the public plunderers who infest Washington and prey upon the government. While he professes to be a Democrat, it is well known that in the 34th Congress he was elected printer of the House by a large Republican majority; (laughter, "a pretty Democrat,") and having made hundreds of thousands of dollars in this office, thus secured by Republican votes, he became a candidate last winter, before the present Congress, for re election, but there being a large Democratic majority in the House, he was ignominiously kicked out, as might have been expected, and an honest Democrat elected in his place.—Having made his fortune out of the office conferred upon him by the Republican party, having thus been kicked out of it by the Democratic party in Congress, he immediately took the money which he had made under the Republican rule, bought out the Washington *Union*, and pretended that it was the organ of the Democratic party, and he the embodiment of Democratic purity. ("Score him Judge," laughter and cheers.)

He no sooner obtained possession of the paper than he appointed his hireling tools to write for it, denouncing in the bitterest terms every Democrat whom he could not seduce into his corrupt schemes. You may have noticed that for the last six months he has been slandering and villifying me in every number of his paper, and now, from day to day, he is urging the Democracy of Illinois to unite with the Republicans in sending a Republican to the U. S. Senate in the place of Mr. Douglas, and a Republican delegation to the House in the places of Harris, Shaw, Morris, and the rest of the Democratic members. ("They can't do it," &c.) And why does he want Republicans sent from this State, instead of Democrats? Of course in order that there may be a Republican Congress, and that he may again be elected printer by Republican votes, knowing that he can never succeed under Democratic rule.

This man Wendell, and his hirelings, whose whole object is to fill money from the public treasury by their lobby operations, are attempting to control the politics of Illinois, with the view of securing the election of men who will act in harmony with them in their speculations to the exclusion of the Democratic party.—Follow the lead of the Washington *Union*, and the corrupt gang who control it, and you will rend the Democratic party asunder, and not only break down those against whom its denunciations are hurled, but disgrace the Administration which it professes to support, while it covertly makes war upon the leading declarations and recommendations of the President and his Cabinet.

I have never noticed the Washington *Union* before, because I have had such loathing, such contempt, such disgust for the corruption that hangs around it, and the corrupt purposes for which its columns are used by the men who rule and control it, that I did not wish to trust myself in an expression of my opinion in relation to it before an audience.

BYRON KILBOURN'S DEFENSE.—We have been waiting for some days to read Byron Kilbourn's elaborate defense of the Land Grant corruption of 1856. We have read it thoroughly, and we are obliged to say that, in our opinion, it is totally a failure. No argument, or ingenious statement can justify the wholesale bribery exposed by the investigation of last winter. Nothing can commend it to even the quiet acquiescence of any right thinking mind, much less to the approval of the great body of the people. The defense is lame and impotent.—*Madison Argus.*

So far as we have have observed, this is the general, if not the unanimous opinion of the press of our State, as well as of papers outside of Wisconsin. Mr. KILBOURN'S pamphlet fails utterly to meet the facts presented in the Investigating Committee's Report, or to justify the proceedings of the La Crosse R. R. Directors.

APPOINTMENT BY THE GOVERNOR.—JOSEPH H. OSBORNE, of Oshkosh, Brigadier General of the 1st Brigade of the 8th Division of the Wisconsin State Militia, to fill the vacancy occasioned by the death of Gen. JOHN F. MILLS.

From the Cincinnati Gazette.

Buchanan's English Letter—Infamous Executive Interference.

We referred yesterday to the use made of the letter, "real or pretended," from Mr. Buchanan, by Bill English, in securing his re-nomination to Congress. That letter has come to light in the columns of the New Albany *Tribune*. It this disgraceful epistle, used by Mr. English, is a forgery, let it be responsibly disavowed. Until this is done, its reputed author must bear the odium it cannot fail to attach to his name, among fair minded men of his own party, no less than among his political opponents. It would be a relief to be assured that it is only an English cheat, but its genuineness hardly admits of doubt What a dignified spectacle does our President with his promises and executive bribes, present in this little electioneering affair! He volunteers all possible "assistance" in carrying the *election* as well as nomination.

WASHINGTON, July, 25, 1858.

HON. WM. H. ENGLISH:

DEAR SIR—Aware that the convention for nominating a Democratic candidate for Congress in your District, will convene in a few days, I cannot refrain from expressing the hope that you may be the unanimous nominee of the convention. If I lived in your District and had a thousand votes you should have them all. Occupying the position you do, I consider it essential that you should succeed in obtaining the nomination. A failure in this would be regarded by me as a rebuke of my Administration.—There may be some aspirant or aspirants for the position in your way. If so you may say to them that by giving you a clear track they will gain my favor and may expect to be provided for in a suitable manner. If nominated I will throw as much assistance into your District as you may desire.

Our friend, Hughes, I see, has a hard row to hoe. He will be liberally sustained. Of this you may rest assured.

Your friend,
JAMES BUCHANAN.

ANOTHER SMALL YACHT TO CROSS THE ATLANTIC.—Before people in England have had time to stop wondering at the audacity of the Yankee captain who with a single assistant navigated the Atlantic, in the little yacht Charter Oak, and arrived safely on the other side, the same captain himself—Charles H. Webb, of Stamford—is busy constructing another yacht, (having sold the Charter Oak,) in which he proposes to make a still more adventurous voyage. His new yacht is to be launched at Stamford on Saturday of this week. Like the little Charter Oak, it has been built by himself; but it is not quite so tiny a thing as that was. The new yacht is fifty-five feet long on deck, has sixteen feet beam and six feet depth of hold. She measures thirty-five tons In this little craft Capt. Webb proposes to sail as far as St. Petersburgh, touching at Southampton, England, and Copenhagen, Denmark, on the way. He intends to remain over winter at St. Petersburgh. If the weather favors he expects to cross the ocean in twenty-two days.—*Hartford Times, July 29.*

"NEGRO EQUALITY."—The Albany *Evening Journal* gives the following illustrations of the way in which "Democratic" principles are applied in practice:

To secure the appointment of a few doorkeepers and coal-heavers, the Democracy last winter coalesced with the Americans in our Assembly. That, with their loud profession of abhorrence of the peculiar principles of Know-Nothingism, was bad enough. But it was far worse to remove two Irishmen from the Capitol in Washington to make room for two negroes, although the motive was to prove to the South that the Northern Democracy had no prejudices against slave labor.

U. S. MINT.—The coinage of the mint at Philadelphia for the month of July last was $523,-244,—$381,844 in gold, $184,900 in silver, and $27,000 in copper.

A Warning to Republicans.

From the N. Y. Evening Post.

The recent attempts of one or two popular Republican presses to let down the Republican party to the level of Filibusterism, and to substitute the Opposition record in Congress last winter, for the Philadelphia platform, is beginning to produce its natural results. It is breeding discontent among the more earnest anti-slavery men, which already begins to find public expression. The meeting at Peterboro' the other day, of which a report will be found in our columns, looked at from this point of view, is suggestive. Though few in numbers, and consisting of men who never belong to large parties long, it represents a feeling which it is not difficult to cultivate and spread widely through the North. We have only to deny the right of Congress to exclude Slavery from the territories; let the Crittenden amendment define the limits of congressional power over Slavery, and there will not be a Republican State north of the Potomac by 1860.

Meetings like this at Peterboro' will spring up in every hamlet, and it is now time for those who are anxious to obtain recruits on any terms, to decide whether it is worth while to lose New York and all New England, for the sake of seeing one chance in ten, perhaps, not more, of carrying Kentucky. Whatever strength the Republican party possesses it has derived from its principles, not from men. When it declines, if it ever does, it will be in consequence of parting with its principles, and not with any of its members. There is quite too much of a disposition among our leading statesmen to make co operation with us easy to men with whom we have scarcely a doctrine in common. No good can come of a party organized upon such a basis.—It carries within itself the seeds of dissolution. The moment it gets into power it is divided and ruined. The free soil party of 1848 perished in that way. Let men who think together act together, and those who think differently act with those who think with them. The public questions are likely to receive a thorough and fair discussion, and in the end the right will prevail.

Nothing can be gained, we are satisfied, by inciting into the Republican organization any who deny the power of Congress to legislate about slavery in territories.

We cordially adopt the language of the St. Lawrence *Republican* upon this subject, and believe the feeling it expresses is shared by the great body of the Republican party:

"It is possible that in some quarters the idea may exist that the Republican party can be induced to modify its principles, or relax its firmness of its constitutional resistance to slavery propagandism; but this cannot be desired by those who participated in the establishment of the party, nor expected by those who consider the existence of this last sentiment in all the states, and its strength and nearly universal diffusion among the people of the free states. For ourselves we are content to adhere to the principles of the Republican party—to acknowledge its name, and to act in accordance with that spirit of harmony and good will which is best calculated to unite in action those who agree in principle, and to give efficiency to all honorable efforts for the success of the cause. There can be no good reason why men who desire the same good object should not agree and unite in action to accomplish it."

From the Boston Traveller of Tuesday.

A Remarkable Case of Double Suicide.

Mr. Munroe, the man who, with his wife attempted to commit suicide on Saturday night, was a currier, in business in Malden. He formerly resided in Cambridge, and also in Charlestown, but more recently, we believe, in Dedham. He was about 54 years of age and his wife 70. The woman was his second wife and they had been married about 15 years. The house is a double one, owned by Mr. Farrar, who occupied one-half of it, and it is the last house on Sprague street, at the foot of the hill. The last that was seen of Mr. and Mrs. Munroe was on Sunday evening, when they seemed in good spirits, and both called into Mr. Farrar's front room on the other side of the entry, and exchanged a few pleasant words. Mr. William Harlow, whose place of residence as well as his business stand as a marble worker is close by, states that his wife had occasion to rise, on account of a sore finger, several times on Sunday night, and saw a light burning in the sitting room of Mrs. Munroe as late as two o'clock. The bed-room which the old folks occupied was right off the sitting room, back; in a front room on the lower floor their son slept, who is between twenty-three and twenty-six years of age, profitably engaged in the sugar business in Boston; and a maiden lady, who occupied the post as housekeeper, slept up stairs.

The housekeeper, on coming down at five o'clock on Monday morning, discovered an empty vial labeled "laudanum" on the table of the sitting room, and also a letter. There was a smell of charcoal in the room, and what alarmed her most was that the door of the little back bed-room was shut. Overwhelmed with a consciousness that something fearful had taken place, she tottered through the entry to the young man's room, and called him; he supposed it was his usual morning call, and did not get up until she called again. He went into the back room, saw the vial, opened the letter, and after reading a sentence or two rushed into the street. Messrs. Farrar and Harlow had by this time been called, and on opening the door of the little bedroom were nearly stifled by the fumes of charcoal. The window was thrown open, and Mrs. Munroe was found to be dead, while Mr. Munroe was insensible, but breathing heavily.

At the foot of the bed stood a pan of lighted charcoal. It is as yet uncertain how the deed was accomplished—that is, whether the laudanum was shared between them, or taken by only one—or at what time in the history of the tragedy the charcoal was lighted. Nothing but the post mortem can throw any light on that subject. Mr. Munroe lay insensible from the time he was found, with little change, up to four o'clock yesterday afternoon, when our reporter saw him, and Justice R. G. Hill, of Malden, was waiting the result before proceeding to hold the inquest. Several doctors had been in attendance, and it was thought barely possible that Mr. Munroe might recover; in that case, of course, he could refuse to answer any questions, as no person is bound to criminate himself, and he would, if he lived, be liable, for directly or indirectly causing the death of his wife. The letter left behind, which is supposed to be in Mr. Munroe's hand-writing, bore reference simply to the distribution of the little personal property which the deceased possessed.

The most singular part of the affair is that, on the part of Mr. Munroe at least, the affair has been premeditated for months. He has been repeatedly heard to make use of expressions indicating that he was tired of life, that he did not care how soon he would leave off work forever, and the like, coupled, however, with a desire that he should not live longer than his wife. She has been an invalid for a long time, and depended on him for assistance in moving around the house, and it is said that no one could have been more devoted than he was, albeit she was six-teen his senior. They were neither of them members or attendants of any Christian Church. The principal part of Sunday was occupied by them in packing up their worldly goods in trunks, to be disposed of according to the directions of the letter they left, and even articles for circulars were placed on the top of a bureau drawer. They were not in straitened circumstances, and if they had been would have been cared for, as one of their sons is married and resident at Lynn, and the other, who lived with them, is single, and has repeatedly urged them to make themselves comfortable on that score. The old lady has been heard to say she would not care to live, afflicted as she was, if it was not for her husband. Mr. Munroe expected a loss of $200 hundred on some hides which he possessed, but this is not thought to have affected the result.

CROPS AND FARMS.—From a recent tour through the County, we are enabled to form some opinion, from personal observation, of the crops the present season. The crops, upon the whole, in the county, are not very encouraging. Practical and scientific farming have been unavailing to counteract the adverse weather and unfavorableness of the season generally. The unusually cold and wet weather during the early part of the season, retarded farming operations, and prevented the usual growth of all kinds of grain. From our observations in this County, we cannot estimate the average yield over half a crop, and it may possibly fall short of that.—Those who sowed the club wheat early, will probably get half a crop compared with last year; and the wheat of this vicinity which was sowed late in the season, will generally prove a failure. The Scotch Fife, and the Rio Grande varieties of wheat pretty generally will produce a yield equal to former seasons.

Barley throughout this County is almost an entire failure, and what little there is, is poor in quality and nearly worthless for the purposes for which it is ordinarily used.

Oats, the prospect is, will yield half a crop, compared with last year. Corn looks well, and if the weather continues favorable, and the season long enough, the corn crop will be good. Potatoes look fine, and promise an abundant yield.—Grass is heavy, and will exceed in quantity the average of former years. It is decidedly the best crop we have seen in the West.—*Kenosha Tribune & Telegraph, Aug. 5.*

EYE AND EAR INFIRMARY!

MEIGS CASE, M. D.,

OPERATOR UPON THE EYE & EAR.

LECTURES ON THE EYE.

A FEW WORDS in their place may not be inappropriate in regard to ophthalmic medicine and surgery, both on account of the great prevalence of ophthalmic diseases in the United States, and the general misapprehension as regards their nature and treatment by the world at large, and (I am free to confess) by the medical profession generally.

I refer to the idea which is entertained by so many, that a routine treatment consisting of some certain eye water or ointment "is good for sore eyes;" thus making no distinction between the infinite varieties of ophthalmic diseases.

For the information of such persons it perhaps would be well to state that over 275 different affections of the eye and its appendages are enumerated in books devoted to the subject, all totally diverse and different in their nature, and requiring different measures for their alleviation or cure.

As to the importance of the subject it will be hardly necessary to call attention upon a question which takes the form of a self evident fact.

Every one feels that sight is the most valuable of the senses, that is, the most important antidote of knowledge, the most invaluable means of communication with surrounding persons and objects, and that it is also essential to the full enjoyment of our other senses, so that these lose more than half their value when sight is gone.

And since it frequently happens that the calamities that can befall human nature short of death, and some perhaps would prefer the termination of existence to its continuance in the solitary and dependent state to which life is reduced by the loss of this precious sense.

Loss of sight is the greatest misfortune even to the rich who can alleviate it by purchasing the aid and services of others. How much more severely must it be felt by the poor, by the middle and lower classes of society, that is by the great majority of mankind, who being rendered incapable of labor and having their minds ourselves ed, find their existence to be a dreary, blank, dreary, dreary and cheerless; burdensome to themselves and those around them.

Even the poet Milton, who might have been supposed to have found a never failing resource in that such an all-cultivated admits of in his highly gifted mind and the exhaustless stores of knowledge with which it was furnished, repeatedly reverts to his blindness, and always in a most pathetic and dependency, characteristic of recent misfortune.

"Thou, with the year,
Seasons return; but not to me returns
Day, or the sweet approach of ev'n or morn,
Or sight of vernal bloom, or summer's rose,
Or flocks, or herds, or human face divine;
But cloud, instead, and ever during dark
Surrounds me, from the cheerful ways of men
Cut off, and for the book of knowledge fair,
Presented with a universal blank,
Of Nature's works to me expunged and rased,
And wisdom at one entrance quite shut out."

The Fearful Mutiny on the New Bedford Whaleship Junior.

Correspondence of the Hartford Times.

NEW LONDON, July 30.—The whaleship Junior, of New Bedford, sailed from that port on a whaling voyage on the 21st of July, 1857. She went around the Cape of Good Hope into the Indian Ocean, bound for New Zealand. When in lat. 28° 55' south, long. 156° 58' east, and about 400 miles from New Zealand, a part of the ship's crew rose in the night and murdered the captain (Archibald Mellen, jr., of Martha's Vineyard,) and the third mate (John Smith, of Boston.) They also attempted to murder the first and second mates at the same time, and dangerously wounded them. The prominent facts are these:

The ringleaders in the mutiny are Cyrus Plummer and Richard Cartha. These two, in company with Cornelius Burns, John Hall, alias Wm. Payne, Wm. Herbert, and perhaps some others, by a preconcerted arrangement, about 1 o'clock on the morning of the 28th, armed themselves and went into the cabin, where the captain and the mates were asleep. Plummer proceeded to the captain's state room, and immediately shot him with a whaling gun containing three balls, when the captain instantly sprung up and exclaimed, 'My God! what is this?' Plummer replied, "G—d d—n you it is me!" and then took him by the hair of the head and despatched him by repeated blows with a hatchet on the neck and in the ribs. At the same time that Plummer went to the captain's state-room, Burns, Hall and Herbert proceeded to the state-rooms of the mates.

Hall shot the 1st mate in the shoulder, with a whaling-gun with six balls, inflicting a horrible wound. Burns killed the 2d mate by repeated stabs through the body with a boarding knife.—Cartha in the meantime struck at the 2d mate with a boarding-knife, but missed his victim.—He then drew a pistol and fired at him, the ball striking his rib and inflicting a severe but not dangerous wound. In the meantime Burns attempted to dispatch him, but he surrendered and went on deck, and the mutineers, after binding him, agreed to spare his life. When Hall fired into the first mate's berth he set the bed on fire, and supposing them all dead but the 2d mate, the mutineers left the cabin.

The 1st mate was first awakened by hearing Plummer give the word "fire," when he immediately received the six balls in his shoulder.—At the same time he heard screaming, which proceeded undoubtedly from the other officers who were at the same moment being attacked. The 1st mate (Mr. Nelson Provost) was stunned by the explosion and the wound he had received, for a moment or two, during which, the mutineers supposing him dead, left the cabin and went on deck. Mr. Provost then got up and went to the captain's state room and found him on his chest, leaning on his arm. He raised him up and he breathed two or three times, and, without speaking, expired. Mr. Provost also went to the 2d and 3d mate's rooms and found the former wounded and the latter dying.

The mutineers soon after finding Mr. Provost was still alive, ordered him on deck, and he attempted to go, but he apprehending his life would be taken, he retreated into the upper hold, and secreted himself among the barrels.

Immediately after the havoc in the cabin was over, and the mutineers got on deck, they called all hands, when Plummer and Cartha informed them that the ship was taken; and the former proceeded to take command. They then proceeded to search the ship for the first mate, but did not succeed in finding him until after the 3th day. Not finding him after several days' search, and finding a cabin window open, they surmised that he had jumped overboard.

In the meantime, Provost becoming faint from loss of blood, and thirsty, crawled into the lower hold, and finding a cask of water with the bung out, tore off his shirt collar, and dipping it into the cask, sucked from the cloth a little water, which enabled him just to support life. He found a little bread also.

By the time they discovered Provost on the 6th day, the murderers had found out that they could not navigate the ship, and were glad to spare his life on condition that he would pilot them to Cape Howe, in New South Wales, an uninhabited portion of the island. This, Mr. Provost, being entirely in their power, promised to do. They also compelled him to promise, by swearing him on a Bible, that after they landed, he would immediately sail for New Zealand, nearly a thousand miles from New South Wales. Mr. P. then gave them the courses by which to work the ship as they brought her within fifteen or twenty miles of the land, when the mutineers left the ship, with some others of the crew, whom they had coaxed or coerced to join them, making ten, the mutineers included. They left on the 4th of January, taking with them two boats, with stores, clothing &c., and sailed for Cape Howe. While on board the *Junior*, they guarded the wounded mates, the guard being armed with pistols and hatchets. During the nights, however, Plummer and Cartha would allow no one but themselves to watch over them.

After the mutineers left the ship, and were out of sight, Mr. Provost took command of the ship and steered immediately for Sidney, in New South Wales, which is about 350 miles from Cape Howe where the mutineers landed. The condition of affairs was immediately reported to the American Consul at Sidney, and a British steamer, with policemen on board, together with second mate of the Junior, was despatched in pursuit of the murderers, and eight of them were captured, and are now on their way home in irons, on board the ship which was the scene of their horrid butcheries.

Mr. Provost and three of the crew came home in the India, of New London, where they arrived on Wednesday last.

CELTIC, TEUTONIC, AFRICAN AND NORTH AMERICAN INDIAN BLOOD MIXED.—There is now in Rochester, N. Y., a man aged one hundred and six years, whose ancestry, together with his own progeny, will exhibit one of the strangest mixtures of races ever heard of. His name is John Shenandosh O'Brien, and was born in Boston, in 1752. His father was an Irishman, and his mother an Indian, of the Oneida tribe. When twelve years old, he was sent to France, and there was educated as a physician. He returned to America, and served in the Revolutionary war; afterward he went back to France, and there married the daughter of the Emperor of Morocco, by whom he had eight children; with her he lived in the United States for some time, and she died. He then married an American woman, descended from the Teutonic line, and after her death, married a negress, who was fifty years younger than himself, and by whom he had four children. In his children are united the blood of Celt, the Teuton, the African, and the North American Indian.

This is the same Shenandoah who figured in the Bourbon Williams investigation. He gave an affidavit to the fact that Mr. Eleazer Williams was of French origin; that he knew him when he was an idiotic child, and that he recovered the use of his faculties in consequence of a shock received by falling off of a high rock into the water. Shenandoah was a nephew of the celebrated Oneida chief, and is well known in the central counties of the State.

INTERESTING STATISTICS.—Among other interesting facts of De Bow's statistical view of the United States, we may mention that the foreign vote of the country is one-twelfth of the whole; that the State of New York has about one-eighth of the population of the Union; that there is one house to every six persons in the country; that the number of persons who live east of the Mississippi is twelve times greater than those who live west thereof; that the distance between New York and New Orleans is more than that between London and Constantinople, or Paris and St. Petersburgh; that over two-fifths of the national territory is drained by the Mississippi and its tributaries; that of the 1,597 political newspapers published in the United States in 1850, 855 were Whig and 742 were Democratic; that there are 400,000 Indians in our Territory, and at the close of the Revolution there were but 30 000 in the old thirteen States, according to an estimate of Gen. Knox; that the direct and indirect tax paid by each white person in the country is $4 24; that the number of real estate owners is 1,600,000, or one in about 319 of the free males over twenty one years of age; that the number of federal office holders, exclusive of the army and navy, is 25,455—a ninefold increase since 1800; that one-fourth part of the people reside in villages and towns, and cities; that the number of people to a dwelling house in New York city averages more than 13, in Boston nearly 9, in New Orleans 9, in Richmond about 5.

GODFREY'S
EXTRACT OF ELDER FLOWERS
For Softening the Skin and Improving the Complexion.
EUGENE DUPUY, 609 BROADWAY, N.Y
Sole Agent for the United States.
THE object of this Circular is to give publicity to the most valuable and efficient Remedy that has yet been introduced in the practice of Medicine, for the purpose of removing every unsightly appearance from the Skin, and preserving it to the latest period of life nearly all the firmness and freshness of youth. Extensive experience and minute observation having satisfied us that the Extract applied as directed it will speedily remove any unsightly appearance, such as Tan, Sun-Burn, Freckles, &c., and quickly cure all Pimples, Humors and Eruptions which may disfigure the countenance; and will have equal power to make the delightful softness and delicate clearness; in short, to preserve a pleasing complexion through life, nothing is required but the use of Godfrey's Extract of Elder Flowers, the sweetest and most pure perfume for fresh Nature. This admirable preparation of Elder Flowers is very fragrant as a perfume. Elder Flowers have from the earliest ages been esteemed as a mild and effectual cosmetic, and will have equal power to the Skin to remove blotches, pimples, Freckles, Redness, &c., it will speedily and completely remove.
CHILDREN.—It is singularly beneficial and perfectly innocuous, even to the youngest infants.
SHAVING.—It's valuable beyond anything, annihilating every pimple, and all roughness rendering the skin soft and firm, preparing it so completely for the razor.
FAMILY LOTION.—Godfrey's Extract of Elder Flowers will be found beyond all praise, and needs only a trial to be approved.
AGENTS.—Gary, Howard & Sanger, New York; Schieffelin Bros. & Co., New York; J. W. Norcross & Co., Boston and New York; F. C. Wells & Co., New York. And all other Wholesale and Retail Druggists. jel4g670d6m

COMMERCIAL & FINANCIAL.

WEEKLY REVIEW.

OFFICE OF THE DAILY SENTINEL, }
Saturday Evening, Aug. 7, 1858. }

The past week, like its predecessor, has been a very quiet one in all branches of business. Farmers are harvesting, and under the present aspect of affairs, do not appear much inclined to hurry their produce to market, whether old or new. The general impression amongst the farmers appears to be, that there must be a still further and important advance in prices of breadstuffs before the close of inland navigation, and we observe that some of the country papers encourage this belief. Time alone can decide upon the correctness of this supposition. Past experience, however, has shown us the danger of holding back in expectation of high prices. It is true that the crops have been very meagre in many parts of the country this season, and the yield light, but the contrary appears to be the case in the old world, according to all accounts up to this time, and a more than usually bountiful harvest is expected there. If this prove true, then unless some unexpected circumstance turns up, the foreign demand the coming year, will not exceed, and perhaps be less than that of the present season. The damage to the crops throughout this country, it is not unlikely has been considerably over-estimated, as is usually the case in all disasters. In this State, during the past week, the numerous complaints of injury to the crops have about ceased, and we trust that in this instance the old saying that "no news is good news," may prove applicable, and that upon harvesting their crops, our farmers have discovered themselves better off than they expected.

Our advices from abroad during the week do not materially differ from those of the previous week. The European markets were all quiet, without any important change, and the harvest prospects on the Continent continued cheering.

In our market little has been done during the week, receipts from the country being very light, and the new crop having scarcely begun to come forward yet. All the grain that has arrived during the week, was quickly disposed of at good prices. Since the date of our last review we note an advance of 5c on spring wheat, 5a7c on oats, 10a15c on corn, 2c on rye, and 5a6c on barley, with an active demand. Very little winter wheat has been on the market—not enough indeed to establish prices. Potatoes are coming in more freely, and declining rapidly. The extreme warm weather makes the marketing of butter next to an impossibility. Good table butter would sell readily at a fair price, but we have not seen a particle for two weeks. The weather during the greater part of the week, has been almost intolerably warm, yesterday and to-day being amongst the hottest days of the season. In the New York market prices of flour and wheat were advancing toward the close of the week, in the face of the reports of dull foreign markets.

We append our usual tables, price list, and money article:—

By reducing flour to wheat, and adding thereto the amount of wheat shipped thus far this season, we will have an aggregate of *three million, one hundred and eighty-nine thousand, seven hundred and six* bushels of wheat, which may be considered the sum and total of the old crop shipped from this port. Whatever more old wheat arrives will probably be bought by millers, and there is little, if any, in store here, to ship, at present.

We quote this week:

WHEAT—Spring, 73a80c for common to No. 1; 80a83c for extra club, from extra fair to choice milling. Th s is an advance of 5c on our last week's quotations. Winter wheat scarce and we may say nominal. Red quoted at 80a90c, and white 90a95c. The sales during the week have been very limited, scarcely any grain coming forward.

To-day, some choice milling wheat sold at 85c, and considerable No. 1 at 82a84c. The market closed firm, prices still looking upward.

FLOUR—Firm at $3,75a$4 for spring extra country brands, and 14 50a 5,25 for w. w. do.

FEEDGRS—Little doing. Rates nominally about the same, 4c on wheat and 20c on flour to Buffalo, and 7c on wheat to Oswego.

OATS—Have been in very active demand all the week, advancing daily. The current prices to-day are 40a43c, an advance of 7c *in one week*. Receipts light.

CORN—Very little has come in during the week, and we have heard of but my few sales at prices much below the real value. Were any quantity of good corn on the market now, it would readily bring Chicago prices. For shipping it is worth full as much here as there, and we think good shelled corn why safely be quoted at 60a67c.

The crop all through the country is light, though generally good, and prices must rule high the coming season.

BARLEY—Has been in good request all the week at 45a 50c. Very little coming in.

RYE—Firmer at 53c.

POTATOES—The market is well supplied with new potatoes, which have been selling at 35a50c. Old potatoes scarce.

EGGS—Less plenty and higher. Fresh packed quoted at 10a12c.

BUTTER—Fresh table butter scarce, and would bring 15c. Firkin is dull and nominal.

HIDES—In demand at 6a7c for green, fresh and salted, and 12½a14c for dry, for common to extra trimmed.

WOOL—A little wool has come to market during the week, and sold at prices ranging from 35 to 55, the last r being the outside figures that have been obtained for nice fleece wool. We note one sale of about 20,000 lbs fine fleece at this place. Choice full blood merino might bring a high r figure, but none of the latter has been on the market recently. Common domestic to ¼ blood ranges from 20 to 35c.

SHEEP PELTS—Shearlings nominal; lamb skins 85a90c, according to size.

ALCOHOL—52c.

OILS—Linseed 80; lard 85a90 for No. 2 to No. 1, and whale 85a90c.

WHISKEY—Firm at 19c.

HAY—Plenty at $6a$7 per ton for timothy.

WOOD—In abundance at $2,50a$3 per cord.

GROCERY TRADE.

The sugar market during the past two months has experienced a remarkable change. The low prices ruling in the latter part of winter and spring had stimulated consumption to such an extent that nearly the entire Louisiana crop was exhausted, and receipts from foreign ports were taken soon after arrival. Only the general distrust in commercial circles prevented speculation at that time. On the 1st of June the stock at New York was found to foot up less than 30,000 hhds, against 75,000 last year, and as active demand prevailed soon after, prices began to advance. Since then the rates have regularly, almost daily, improved, and now our quotations are 2a2½c above those of the middle of May, with a tendency still upward.

Teas, both green and black, have advanced from 3 to 5c per lb. Coffees are also somewhat higher.

There has been an active movement in dried apples, resulting in an improvement in prices. A prime article is now worth 9c. In other goods we notice no material change. We quote Sugars firm:

Crushed d refd, 12¾c; do C 12¼; Powdered do 12¾; do C 11¾; Refd white sugar C 10; Refd yellow do A 10¾c; do B 10; Gsyrup, bbl 72; 10 gal kgs 80.

GOODRICH & TERRY.

CATTLE AND PROVISION MARKET.

The cattle market has been well supplied; prices about the same as last week.

PROVISIONS—Heavy mess pork $17, mess pork 16 50, prime mess pork $13, canvassed sugar cured hams 10c, canvassed shoulders 7½c, lard in bbls 10¾, do in kegs 11c, Mess beef $9a$10.

LAFTON & PLANKINTON,
Bull's Head Cattle Market.

THE LUMBER TRADE.

The lumber trade has been good, the past week, for this season of the year. We notice an increasing demand in the retail trade, indicated, no doubt, by the extreme low prices at which lumber is offered; while lumber by the cargo continues a drug in the market. Manufacturers who refused $7,50 and $8,00 per M, in the Spring, are now very anxious to realize $6 and $6,50. We note sales of the Brig Preble's cargo, Oconto, at $7 for merchantable, and $4 for culls; Sch. Juniata Patton's cargo, Oconto, at $6 for merchantable and $4 for culls. We hear of no sales of Michigan lumber, but quote the same as last week, $5,5a$6.

MESSRS. HOUGHTON, BROWN & CO., Lumber Dealers, corner of Third and Tamarack streets, furnish us the following retail prices:

Clear plank $30, 2d do $25, clear boards $30, 2d do $25, 3d do $18, clear flooring $25, 2d do $18, common do $15, clear siding $18, c mmon do $10, common boards, joist, scantling, fencing, timber and plank (green), $7, do dry $8, 16 feet fencing (green or dry) $8, warranted shingles $2 75, lath $2 50 to $3, cedar posts $8 per hundred, pickets per m $10.

MONEY MARKET.

BANKING AND EXCHANGE OFFICE OF BRUCE BROTHERS, }
No. 166 EAST WATER ST., MIL., Aug. 7, '58. }

Since writing our last there has been nothing of interest to note, save the news of the successful laying of the Atlantic telegraph cable. We can none of us foresee the immense benefit this will accrue to the financial and commercial w rld from the rapid communication we shall now be favored with.

Money still continues as before, close, and only to be had on first class securities, and at high rates. There is, however, quite a large amount here for investment, if the right collaterals are produced.

The bids for one-half of the new treasury loan of twenty millions will be opened Monday next. We see, from New York advices, that the premium is about ¾ per cent and it is probable that the competition will be spirited.

The new crop is being harvested as fast as the grain is ripe, in various portions of the State; but the inferior quality and effect of blight, and premature ripening of the yield.

Exchange is very scarce, and has to-day advanced in price. We can see no reason why high rates should continue, and believe as soon as produce goes forward we shall return to the old standard. We are now full of currency, and most of our banks are prepared to do their regular fall business, as far as grain is concerned.

Gold is in considerable demand and scarce. We quote:

Exchange on N.Y. city, Selling	½ cent premium.
Gold, Selling	½ cent do

Land warrants are in good demand, particularly 80's and 160's. We give an advanced price as follows:

40's	1 15 per acre.
80's	98 " "
120's	78 " "
160's	68 " "

Uncurrent money is not plenty, but still we see a reasonable proportion. We buy as by our list, which we shall revise next week.

We give our usual Specie quotations:

WHAT! WHY A BEAUTIFUL HEAD OF HAIR.

Because it is the ornament *God Himself* provided for all our race. Reader, alas, such the case may bloom ever so brightly on the glowing cheek, the eye be ever so sparkling, the teeth be the pride of the fair, if the head is covered, or the hair be snarled and shrivelled, harsh and dry, or worse still, if spiritless with grey, prove the premature ban of her charms. Ladies and Hair Restoratives, if used two or three times a week, will restore and permanently secure to all such requirement. Read the following and judge, for well the first is the celebrated Saxatia, whether:

DR. WOOD— New York, April 19, 1858.
Dear Sir: Permit me to express to you the obligation I am under for the entire restoration of my hair to its original color. About the middle of winter, 1857, I noticed that it was rapidly becoming gray, but upon the application of your Hair Restorative, it soon recovered its former hue. I consider your Hair Restorative as a very wonderful invention, and valuable as well as agreeable.
I am, dear sir, yours truly,
S. THALBERG.
